Data: 03.07.2026

Glass crate unloading gripper mounted on forklift forks is a reliable solution ensuring safe and efficient transport of glass packages from containers. The design guarantees load stability and protection, and the included stand allows for safe storage of the device, improving workflow organization and minimizing the risk of damage. Ideal for applications in the glass and logistics industries.

Technical data:

- Total length: 5090 mm
- Total width: 800 mm
- Total height: 925 mm
- Net weight: 600 Kg
- Load capacity: from 2200 kg to 2500 kg
- Working length: 2550 - 3600 mm
- Working width: 210 mm

Description:

The glass crate unloading gripper for containers is designed for the safe transport of glass packages placed in wooden crates.

At least 2 operators are required to handle the gripper. The gripper should be stored on a stand when not in use. The stand must be anchored to the ground to ensure its stability.

Note:

A forklift with appropriate load capacity is necessary for the proper use of the gripper.

The price includes a specialized stand for storing the traverse.
