The JUMBO 3-25 mm Glass Sheet Gripper (WD-06C) is a reliable tool designed for the safe and efficient handling of glass with a thickness of 3 to 25 mm. It provides a stable grip and minimizes the risk of damage during transport, significantly improving workflow in glass and window factories. Its robust design guarantees a high load capacity of up to 1000 kg, increasing operator safety.

Technical data:	WD-06C
Overall length:	740 mm
Overall width:	230 mm
Overall height:	680 mm
Net weight:	29 kg
Total load capacity:	1000 kg
Thickness of carried sheet:	3÷25 mm
