www.melka.com.pl

The MELKA suction gripper is a reliable tool for safely handling flat glass and thermal insulation packages. Equipped with two safety circuits, it guarantees a stable grip and minimizes the risk of material damage, increasing work efficiency and safety. Its ergonomic design simplifies workspace organization and speeds up assembly processes.

Type	Load capacity (kg)	Number of suction cups	Min glass dimension (mm)	Dimensions (mm)	Weight	Tilt
WD-07A	180	2	300x750	460x700x450	46	none
WD-07B	180	2	300x750	460x750x350	47	manual
WD-07C	360	4	600x800	600x800x450	56	none
WD-07D	360	4	600x800	600x800x350	57	manual

- The devices are equipped with two safety circuits
