WD-07J

WD-07K

The WD-07I/J/K suction lifter is a reliable solution for safely handling flat glass and thermal insulation packages with minimum dimensions of 750x1400 mm. Equipped with eight suction cups and a load capacity of up to 720 kg, it guarantees stability and precision during operation. With two safety circuits and manual or electric rotation and tilt options, the device increases the efficiency and safety of operations, streamlining workstation organization.

Type	Load capacity (kg)	Number of suction cups	Min glass size (mm)	Weight (kg)	Rotation	Tilt
WD-07I	720	8	750x1400	76	manual	none
WD-07J	720	8	750x1400	130	manual	electric
WD-07K	720	8	750x1400	145	electric	electric

- The devices are equipped with two safety circuits
