The MELKA vertical roller conveyor is a reliable solution for transporting heavy windows weighing up to 400 kg. Equipped with rubberized rollers and adjustable rails, it ensures safe and smooth movement of elements, minimizing the risk of damage. The ability to connect the conveyors into workflows optimizes workflow organization and increases production efficiency.

Technical data:	PD-01/OF2300.00C1	PD-01/OF2300.00C2
Total length:	2000 mm	3000 mm
Overall width:	620 mm	620 mm
Total height:	2290 mm	2290 mm
Working length:	2000 mm	3000 mm
Working width:	1x150 mm	1x150 mm
Working height:	2000 mm	2000 mm
Number of roller rows:	1	1
Tilt angle [specify when ordering]	6 or 8 or 10 degrees	6 or 8 or 10 degrees
Height from floor to rollers:	310 mm (+/- 30 mm)	310 mm (+/- 30 mm)

- Vertical wall covered with a roller strip with rubber rollers
- Roller strips with adjustable position
- Permissible load of the feeder: 400 kg
- Thanks to the special design, the feeders can be connected in series, thus providing a work surface without interruptions.
