

SEMI-AUTOMATIC SLIDING MAGAZINE WITH HYDRAULIC DRIVE FOR STORING JUMBO GLASS PACKETS 6000X3210 MM

Kod produktu: RGH-240J/XX
www.melka.com.pl

Data: 03.07.2026

The RGH-240J/XX semi-automatic hydraulically driven sliding warehouse is an innovative solution for storing jumbo glass packages measuring 6000x3210 mm. Thanks to the hydraulic sliding system and remote control, it ensures safe, ergonomic operation and optimizes storage space. The cable-free design increases safety and streamlines workflow in the plant.

Number of shelves:	6	7	8	9	10	11	12	13

The storage rack consists of one fixed drawer. The remaining drawers are sliding.

The drawers are moved using a hydraulic system, which is controlled by a remote control or from the control panel.

Thanks to the use of a guide track, moving the drawers is hassle-free and easy to use.

The warehouse minimizes loading space. A significant advantage of the offered warehouse is the absence of any cables along the shelves, thanks to remote control.

Video showing the operation of the warehouse:
