

Press for pre-assembly of window frames and sashes

Kod produktu: PS-02A
www.melka.com.pl

Data: 03.07.2026

The PS-02A press for pre-assembly of window frames and sashes is a reliable solution that increases work efficiency and safety. Thanks to its infinitely variable height adjustment and smooth-running guides, it enables precise and quick assembly of components, minimizing the risk of damage. Its robust construction with a polyamide profile ensures stability and ease of use in window and door installations.

Technical data:	PS-02A
Total length:	3200 mm
Overall width:	950 mm
Total height:	2310 mm
Working length:	2800 mm
Working width:	170 mm
Working height:	2000 mm

Description:

- Stepless height adjustment up to 500 mm thanks to proven linear drive technology.
- Smooth-running guides with long service life.
- The frame is secured with two cylindrical mounting units with the possibility of lateral

adjustment.

- Cylindrical clamping units with the ability to completely hide below the vertical press frame.
- Vertical frame covered with a polyamide profile.
