

Double-sided stationary rack for storing PVC profiles

Kod produktu: RG-02B/OF2024.00B
www.melka.com.pl

Data: 03.07.2026

The RG-02B/OF2024.00B stationary double-sided shelving unit is a reliable solution for efficient PVC profile storage. Its robust construction and load capacity of up to 3,000 kg ensure safe storage of materials while optimizing storage space. It facilitates work organization, increasing efficiency and maintaining order in the plant.

Technical data:	RG-02B/OF2024.00B
Total length:	5650 mm
Overall width:	1400 mm
Total height:	2130 mm
Load capacity of one level:	750 kg
Total load capacity:	3000 kg
Height between shelves:	450 mm
