

Shelf for window fittings

Kod produktu: RG-3B

www.melka.com.pl

Data: 03.07.2026

The RG-3B shelving unit is a reliable solution for storing window fittings, streamlining workflows in production facilities. Its robust design, with a load capacity of up to 1000 kg, ensures safe and ergonomic storage, minimizing the risk of damage and facilitating quick access to necessary parts. Ideal for optimizing space and increasing the efficiency of production processes.

Technical data:	RG-03B
Total length:	3560 mm
Overall width:	1000 mm
Total height:	2350 mm
Number of compartments:	40 pcs.
Partition data:	320x150x1000 mm
Libra:	380 kg
Load capacity:	1000 kg
