

Shelf for window fittings

Kod produktu: RG-03A

www.melka.com.pl

Data: 03.07.2026

The RG-03A shelving unit is a reliable solution for storing window fittings, streamlining workflows in the factory. Its robust construction ensures safety and stability under heavy loads, while numerous compartments allow for easy access and sorting of components. This increases production efficiency and minimizes the risk of damage to fittings.

Technical data:	RG-03A
Total length:	2700 mm
Overall width:	1300 mm
Total height:	2350 mm
Number of compartments:	33 pcs.
Partition data:	200x170 mm
Libra:	420 kg
Load capacity:	850 kg
