

Fittings assembly table (pneumatic)

Kod produktu: ST-05E

Data: 03.07.2026

www.melka.com.pl

The ST-05E hardware assembly table is a reliable solution for the window industry, streamlining the installation of hardware and corners in window sashes. Pneumatic tabletop tilt adjustment and height adjustment ensure ergonomics and work safety, while the robust construction with polyamide rollers guarantees precision and workspace organization.

Technical data:	ST-05E
Total length:	2000 mm
Overall width:	1300 mm
Total height:	850/1000 mm
Load capacity:	200 kg

Description:

- The assembly table facilitates the installation of fittings and corner elements in window sashes.
- Table top inclination 15 ° with pneumatic control.
- The leaf is supported on 6 polyamide rollers with the possibility of individual adjustment.
- The table top is covered with a polyamide strip or felt lining (please specify when ordering, brushes with a price mark-up).
- Tool shelf.
- Table height adjustment - this allows it to be integrated into the production line.
