

# Assembly table - rotary

Kod produktu: OF2092.00  
[www.melka.com.pl](http://www.melka.com.pl)

Data: 03.07.2026

The MELKA rotary assembly table is a reliable solution for the glass, window, and stone industries, enabling precise and ergonomic work on large components. Pneumatic tilting and full 360° rotation ensure easy manipulation and secure mounting of workpieces, significantly improving workspace organization and minimizing the risk of damage. Equipped with practical tool trays and adjustable arms, it optimizes workspace and increases assembly efficiency.

Technical data:

- Length: 3000/3800 mm
- Width: 2100-2795 mm
- Working height: 920 mm
- Load capacity 250 kg
- Pneumatically tiltable table 0 - 84 degrees

Description:

- Table top covered with technical felt, rubber mat, brush strip or polyamide strip
- Under the tabletop on both sides there are containers for handy tools with dimensions of 400x300 mm
- Manually extendable table arms allow you to increase the working length and width.
- There are retractable supports at the front of the table to protect the window when changing to a vertical position.
- The table rotates 360 degrees. The rotation is braked using a pneumatic actuator.
