

Transmission table for grinding machine

Kod produktu: ST-03A

Data: 03.07.2026

www.melka.com.pl

The ST-03A transfer table is a reliable solution for supporting the transport and precise positioning of materials on grinding machines. Its robust construction and 61 35 mm diameter balls ensure smooth feed and increase work efficiency while minimizing the risk of damage to workpieces. Its ergonomic height improves operator comfort, enhancing safety and workplace organization.

Technical data:	ST-03A
Total length:	2000 mm
Overall width:	1000 mm
Total height:	850/1000 mm
Number of balls ? 35:	61 pcs.
