The MELKA shelf dryer is a durable and mobile solution for efficient print drying in the glass and window industry. Its galvanized steel construction and 50 shelves with dividers ensure uniform drying even on raised grids, optimizing ventilation and fume extraction. Equipped with braked wheels, it guarantees safe and ergonomic workflow and allows easy access to the high-temperature oven.

Technical data:	SZ-01A	SZ-01B
Total length:	1000 mm	1500 mm
Overall width:	700 mm	1000 mm
Height of the dryer when folded:	1350 mm	1350 mm
Height of the dryer when unfolded:	1750 mm	1750 mm
Distance between shelves:	25 mm	25 mm
Dryer durability:	600 kg	600 kg

- The shelves are made of electrolytically galvanized steel bars
- The dryer is equipped with wheels: 2 swivel casters
- 2 swivel casters with brakes
- Possibility of entering the entire dryer into the oven, temperature resistance 250 0 C

Description:

- The shelf dryer is made of galvanized steel and contains 50 shelves, allowing for effective print drying. Plastic spacers allow for parallel shelves, which allows for drying on angled grids, utilizing the thermal properties of air and perfectly ventilating solvent vapors. The dryers are available in

B-0 and B-1 formats.
