Data: 03.07.2026

The JUMBO WD-08D suction cup lifting beam is a reliable device for the safe transport of large glass panes measuring 3300x1600 mm. With a load capacity of 1620 kg and four safety circuits, it ensures stability and material protection during operation. It facilitates the organization of the logistics process, increasing efficiency and safety in the plant.

Description:

- The traverse with suction cups is used to transport JUMBO-sized glass
- Load capacity: 1620 kg
- Minimum panel dimensions: 3300x1600 mm
- Power supply: 400 V or 230 V
- Curb weight: 239 kg
- Four safety circuits
