

A beam with suction cups for transporting JUMBO glass sheets

Kod produktu: WD-08B

Data: 03.07.2026

www.melka.com.pl

The JUMBO WD-08B suction cup lifting beam is a reliable solution for the safe transport of large glass panes measuring 3300x1600 mm and with a load capacity of up to 720 kg. Equipped with two safety circuits, it guarantees stability and protection during operation, while improving the organization and efficiency of transport processes in the plant.

Description:

- The traverse with suction cups is used to transport JUMBO-sized glass
- Load capacity: 720 kg
- Minimum panel dimensions: 3300x1600 mm
- Power supply: 400 V or 230 V
- Curb weight: 150 kg
- Two safety circuits
