Data: 03.07.2026

The WD-08C suction cup lifting beam is a reliable device for the safe transport of large, jumbo-sized glass panes. With a load capacity of up to 1,080 kg and four safety circuits, it guarantees stability and material protection during handling. It optimizes workflow, increasing efficiency and minimizing the risk of damage.

Description:

- The traverse with suction cups is used to transport JUMBO-sized glass
- Load capacity: 1080 kg
- Minimum panel dimensions: 3300x1600 mm
- Power supply: 400V or 230V
- Curb weight: 177 kg
- Four safety circuits
