Data: 03.07.2026

The WD-02B/OF2278.00D fork is a reliable tool for safely unloading large glass packages, allowing for ground-level operation of the upper arms. Adjustable clamping pressure and multi-point mounting ensure stability and material protection during transport, while also improving operator ergonomics and safety. Its robust design and compliance with industry standards ensure long-term, trouble-free operation.

Technical data:	WD-02B\OF2278.00A
Total length:	3290 mm
Overall width:	540 mm
Total height:	3850 mm
Total load capacity:	6000 kg
Working length:	3200÷6000 mm
Working width:	0-180 mm
Working height:	3350 mm
Curb weight:	720 kg

Description :

The forks are designed for the safe transport of glass packages measuring 6000 x 3210 mm. Multi-point mounting and adjustable pressure to the frame (from 0-180 mm) ensure safe movement. The universal forks are constructed as a permanent structure to maintain adequate rigidity during operation. The forks should be stored on a specialized stationary stand. The forks are manufactured in accordance with applicable technical regulations. The manufacturer provides a safety certificate for each product confirming compliance with Polish standards.

Additional equipment of version OF2278.00D

- adjustment of the upper legs from the operator's level without the need to use a ladder
- mirrors to facilitate the positioning of the upper paws
