The WZ-30A/OF2268.00 vertical glass transport trolley with roller guides is a reliable solution for the glass industry, guaranteeing safe and ergonomic movement of glass sheets with a high load capacity of up to 1,700 kg. Equipped with precise roller guides and stable wheels with brakes, it improves workflow and minimizes the risk of material damage. Integration with HEGLA automatic loading stations increases the efficiency of production processes.

Technical data:

- Total length: 1190 mm
- Overall width: 1776 mm
- Total height: 2353 mm
- Partition width: 12 mm
- Working length: 50 cells x 12 mm
- Working height: 1750 mm
- Load capacity: 1700 kg
- Roller guides x 13 pcs.

Trolley equipped with wheels:

- 2 x swivel caster set with brake and polyamide wheel ?200
- 2 x fixed castor set with polyamide wheel ?200

It is possible to manufacture trolleys compatible with HEGLA automatic loading stations.
