

Glass sorting trolley

Kod produktu: WZ-01/OF1835.00C

Data: 03.07.2026

www.melka.com.pl

The MELKA glass sorting trolley is a reliable solution that streamlines workflows in glass and window factories. Equipped with 34 safety-retained compartments and polyamide rollers, it guarantees safe and ergonomic storage of glass panes with a total load capacity of up to 2,000 kg. Braked wheels and forklift handles enhance the trolley's mobility and stability, enhancing operational efficiency and safety.

Technical data:	
Total length:	2500 mm
Overall width:	920 mm
Total height:	2185 mm
Working length:	2500 mm
Storage chamber width:	12 mm
Working height:	1400 mm
Number of storage chambers:	34 pcs.
Load capacity:	2000 kg

Description:
