Data: 03.07.2026

The OF2329.00 autoclave loading trolleys and platforms are a reliable solution that streamlines the loading and unloading process in the glass, window, and stone industries. They ensure safe and ergonomic material handling, minimizing the risk of damage and improving workflow. We manufacture our products based on both our own and provided documentation, adapting them to individual customer needs.

We manufacture autoclave loading trolleys and platforms according to both our own and provided documentation.
